

DISCOVER THE DIFFERENCE DUST COLLECTORS

SFS manufactures a full line of cartridge type Dust Collectors and provides both standard solutions as well as highly customized units to exactly match your unique needs. SFS Dust Collectors are used by hundreds of factories for industrial air filtration and product recovery applications.

APPLICATIONS

Carbon Dust ~ Dry Machining Applications such as Grinding, Buffing, Laser/Plasma Cutting, Polishing etc. ~ Graphite Machining ~ Bench/Tool Cutter ~ Precast Slab Cutting
Abrasive Cut-off machines ~ Rubber Mills ~ Woodworking ~ Jewellery Buffing

SUPERIOR DESIGN ~ HIGHEST SAFETY ~ LOW ENERGY CONSUMPTION

FILTER LIFE, PERFORMANCE, AND EFFICIENCY GUARANTEED!

SFS Dust Collectors are engineered with a singular goal - to create best results for you. With innovative design and features, the Dust Collectors are successfully used to create a clean environment in variety of applications generating fine to coarse particulate dust.

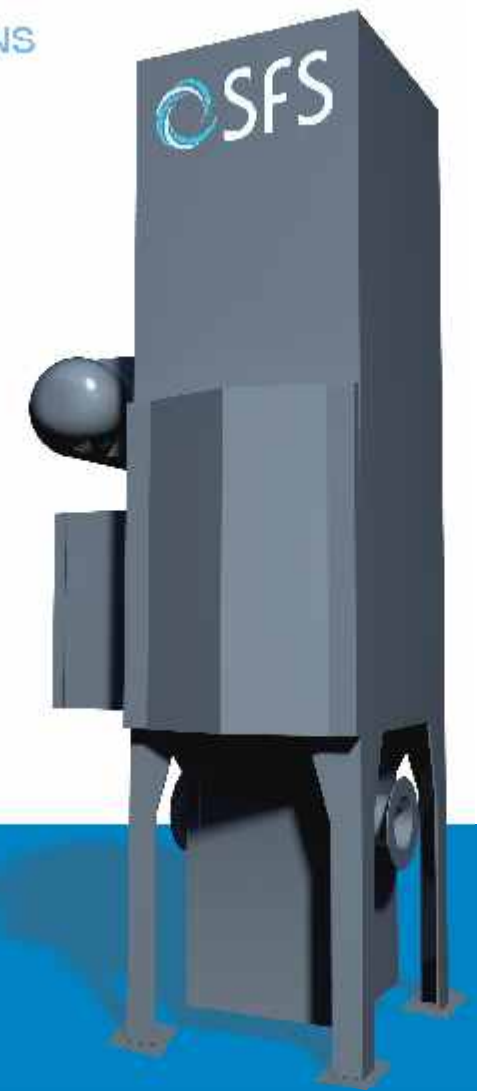

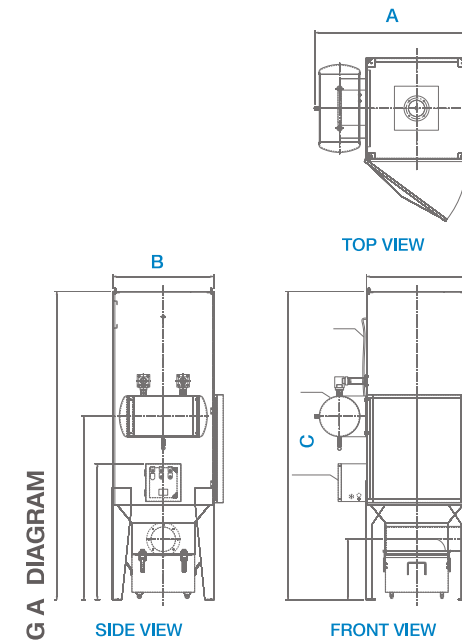

RANGE OF STAND ALONE DUST COLLECTORS

CENTRALIZED DUST COLLECTOR

equipment life

FEATURES

- ~ Modular design means optimum site flexibility and shorter manufacturing lead time
- ~ Durable, long life with heavy duty construction
- ~ Vertical design of the filter cartridges provides more efficient pulsing of dust
- ~ Smallest floor space with compact design
- ~ Application engineering for filter media, pleat spacing options as per your specific application
- ~ Faster, trouble-free change-out of cartridges
- ~ Designed to create lesser noise on shop-floor
- ~ Auto cleaning with compressed air reverse pulse jet arrangement

ACCESSORIES

SFS provides complete Dust Collector system including the collection unit, duct work & other accessories.

- ~ Customized Hoods
- ~ Extraction Arms
- ~ Rotary Airlock Valves

TECHNICAL DETAILS

Model	CFM/CMH	A	B	C
DC 400C	400/650	790	540	1825
DC 600C	600/1000	1010	700	2250
DC 800C	800/1350	1170	835	2280
DC 1200C	1200/2000	1265	940	2380
DC 1600C	1600/2700	1420	1090	2770

A,B,C dimensions in mm.

INSTALLATION AND COMMISSIONING

All SFS Dust Collectors are serviced by a national network of factory trained engineers. Our direct factory support also includes comprehensive design consultation, detail engineering design and every other technical support for best results.

- ~ Cost-effective Spares and consumables
- ~ Annual Maintenance Contracts (AMCs)

MARKET LEADER IN INDUSTRIAL AIR FILTRATION

Every application and its working environment is unique. SFS has a highly evolved methodology that captures all aspects of your industrial processes and maps every detail required to create a high performance filtration solution.

Scientifically measured
before/after air quality at your
premises for every installation.
